# Six Flags To Expand Each Year

SIX FLAGS Over Texas has entertained over 450,0000 visitors from every corner of the United States as well as 30 foreign countries.

The heaviest concentration of visitors naturally has come from within the borders of the State of Texas, but SIX FLAGS officials are more than pleased at the 8 per cent figure representing out-of-state visitors to the $10,000,000 historical amusement park.

Among other contributing factors to the success of SIX FLAGS Over Texas has been the almost perfect weather for the past two months over the Dallas-Fort Worth area where the 105-acre park is located.

Angus G. Wynne, Jr., president of Great Southwest Corporation which built the park, said that plans for 1962 call for the expansion of all facilities, rides, attractions and shows in order to about double the current handling capacity of SIX FLAGS, which is now approximately 15,000 people per day. Mr. Wynne also pointed out that a continuing policy of adding new and fresh attractions each year will assure constant growth and further development of SIX FLAGS.

Construction has already started on the Inn of the Six Flags, a 100-room horizontal hotel of unique design expected to cost close to $1,000,000. The site of the new Inn, featuring three swimming pools, is just off Highway 360 and is approximately three minutes from the amusement center. Plans call for the completion of the Inn before April 20, 1962, when SIX FLAGS Over Texas will begin its second season of operations.

During its first short season, SIX FLAGS has become more than just a tourist attraction. The $10,000,000 wonderland is a memorial to Texas' rich heritage as well as an entertainment center dedicated to high adventure and wholesome family fun.
